AMERICAN BOOK PUBLISHING RECORD

FOR THE MONTH ENDING JULY 31, 1961

AS CATALOGUED BY THE LIBRARY OF CONGRESS
AND ANNOTATED BY PUBLISHERS' WEEKLY

Volume 2, Number 7
for the month ending
July 31, 1961.

AMERICAN BOOK PUBLISHING RECORD

This cumulation from the listings in the PUBLISHERS' WEEKLY aims to be a complete and accurate record of American *book* publication in the four (or sometimes five) calendar weeks preceding its date of issue, "*book*" being defined in accordance with a Unesco recommendation as a non-periodical publication of 49 pages or more, not counting the covers. Smaller hardbound books and some pamphlets of fewer pages, but of special interest, are also listed.

Coverage extends to the books of all publishers on all subjects, including books printed abroad but "published" in the U.S.A. in the sense of being offered for sale here through a single designated agent. Omitted, however, are government or business publications not primarily intended for public distribution; and most serials.

The form of entry, the Dewey classification number, and the subject headings are as established by the Library of Congress for its catalog cards. The descriptive annotations have, wherever possible, been prepared after actual examination of the finished books, but are intended to place, not to judge the books.

Prices are shown except when not supplied by publisher or obtainable only on specific request, in which case the word "apply" is used. "Gratis" is used when the book is free. When not specified, the binding is cloth.

Measurements are in centimeters, the height being given before the width. Symbols and abbreviations whose meanings are not readily apparent are:

- ★— A translation from a foreign language.
- ‡— An imported publication.
- T-Bk—A talking book (phonorecord).
